

Dear voluntary sector colleagues,

We'd like you to take part in a major new survey of the voluntary sector in the East Riding of Yorkshire, Yorkshire and the Humber more widely and the rest of Northern England.

Whether you are thriving, struggling or going along as normal; a large or small organisation or group, you need to complete the survey so that a comprehensive picture can be built on how the voluntary sector is faring in this area.

It only takes 15 minutes to complete, you won't need to look up any facts and figures and, hopefully, you'll also find it quite interesting to answer the questions. Your answers are completely confidential, we do not ask for your organisations name or address, nor record IP addresses.

If you click this link, it will take you straight to the survey questionnaire – where you can find more detail on who is doing the work and why:

<https://durham.onlinesurveys.ac.uk/third-sector-trends-in-yorkshire-and-the-humber-2016>

(if the link doesn't work from this email, then just paste the address in your browser and it will work)

When the results are all in, we'll have a much better picture of the situation in the local area.

With best wishes

Sian Broughton
Chief Executive Officer
East Riding Voluntary Action Services (ERVAS) Ltd
